

NEFERTARI INTERNATIONAL SCHOOL, CAIRO, EGYPT
AMERICAN DIVISION

7 September 2020

Dear Parents and Students,

NAIS staff and administration understands all your worries regarding the shift from SAT to ACT this academic year 2020-2021.

This letter is to assure you that the school has taken all the necessary plans and preparations for students from grade 9-12 with special attention given to grade 12 students.

It was agreed that students will take 2 ACT sessions per week, one in school and the other online.

The school would also like to assure you that both SAT and ACT measure the same skills and content.

ACT is a standardized and computerized test which is based on the curriculum studied at school to meet the common core standards. Students shall be trained on the new computer based exam version.

The school also applied to ACT organization to become an examination center.

Please rest assured that the school is handling the issue efficiently.

Sincerely,

School Administration
